The Township of Westampton permits the operation of generally accepted agricultural management practices within the municipality. If the property you are purchasing is located near land actively devoted to commercial agriculture or in an agricultural development area, meaning an area identified by a county agriculture or in an agricultural development provision of the N.J.S.A. 4:1C-18 and certified by the State Agriculture Development Committee, you may be subject to inconveniences or discomfort arising from such operation. Such discomfort or inconveniences may include, but are not limited to: noise, odors, fumes, dust, smoke, insects, operations of machinery (including aircraft) during any twenty-four-hour period, storage and disposal of manure and compost and the application by spraying or otherwise of manure and compost, and the application by spraying or otherwise of chemical fertilizers, soil amendments, herbicides, and pesticides. One or more of the inconveniences described may occur as the result of any agricultural operation which is in conformance with existing laws and regulations and accepted customs and standards. If you live near an agricultural area, you should be prepared to accept such inconveniences or discomfort as normal and necessary aspect of living in an area with a strong rural character and a strong agricultural sector. The State Agriculture Development Committee has established a formal complaint process to assist in the resolution of any disputes which might arise between residents of the Township of Westampton regarding the operations of commercial farms.
