

## ZONING

### *73 Attachment 12*

#### **Town of Chenango**

#### **§ 73-55. Attachment XII: Schedule of Regulations, Wellhead Protection Zone. [Added 8-19-1991; amended 9-13-1993; 4-15-1996 by L.L. No. 2-1996]**

The following land use activities may not be initiated or carried on in Zone I after enactment of this chapter:

- (1) Excavations that intersect the water table at its seasonal high level and remain open for a period of time exceeding six months.
- (2) The construction of septic systems with a maximum flow rate exceeding 1,000 gallons per day.
- (3) The uncovered outdoor stockpiling of manure.
- (4) The construction of facilities for the below-ground storage of hazardous or toxic materials.
- (5) The landfilling of refuse, radioactive materials, toxic materials or hazardous materials on or below the ground surface.
- (6) The siting of junkyards or metal salvage operations.
- (7) The construction of pipelines that carry toxic or hazardous materials over distances exceeding 100 feet.
- (8) The uncovered outdoor storage of road salt.
- (9) The construction or operation of a private septic system of any size within the boundaries of the town sewer district.
- (10) Uses permitted by special permit:
  - a. The disposal of construction and demolition debris.
