

ZONING

73 Attachment 14

Town of Chanango

§ 73-57. Attachment XIV: Schedule of Regulations, Watershed Area. [Added 8-19-1991]

The following land use activities may not be initiated in Zone III after enactment of this chapter:

- (1) The uncovered outdoor stockpiling of more than 1,000 pounds of manure within 200 feet of a watercourse or the Zone III boundary.
- (2) The construction of facilities for the below-ground storage of hazardous or toxic materials except where leak detection systems and/or secondary containment structures are installed.
- (3) The landfilling of refuse, radioactive materials, toxic materials or hazardous materials on or below the ground surface.
- (4) The siting of junkyards or metal salvage operations within 100 feet of a watercourse or the Zone III boundary.
- (5) The construction of pipelines that carry toxic or hazardous materials within 250 feet of a watercourse or the Zone III boundary.
- (6) The uncovered outdoor storage of 100 tons or more of road salt within 100 feet of a watercourse or the Zone III boundary.
- (7) The construction or operation of a private septic system of any size within the boundaries of a town sewer district. **[Added 9-13-1993]**
