Town of Washington

Dutchess County, NY

Natural Resources Inventory - 2023

17. Important Biodiversity Areas

- Washington Boundary
- Municipal Boundary
- Parcel Boundary
- Taconic State Parkway
- Major Road
- Local Road
- Waterbody
- Perennial Stream
- Intermittent Stream
- Wetland
- Harlem Valley Calcareous Wetlands Significant Biodiversity Area (SBA)
- Important Coldwater Stream Habitat
- Important Area for Rare Terrestrial Animals
- Important Area for Rare Wetland Animals

Important areas were mapped by the New York Natural Heritage Program and identify areas needed to support the continued presence and quality of known populations of rare animals and rare plants, as well as known locations of rare or high-quality ecological communities. The areas are mapped around documented locations based on the species' habitats and life history. Important areas include the specific locations where species have been observed, as well as areas critical to maintaining the species' habitat. These are not all the areas important for rare animals and plants, just those where such species have been documented.
