

APPENDIX E

E Attachment 7

Town of New Shoreham

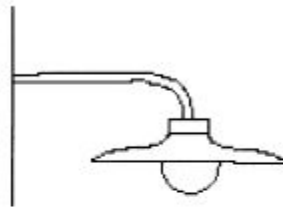

ZONING APPENDIX G OUTDOOR LIGHTING

1. Any outdoor light fixture you choose to install that has a light output of 1800 lumens or less is OK in any form. Any flood light or spot light you choose to install with a light output of 900 lumens or less is OK as long as it isn't pointed to create a nuisance.

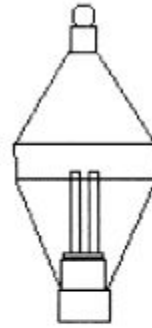

1| - 60 watt
incandescent

or 1 - 13 watt
compact fluorescent

1 - 100 watt
incandescent

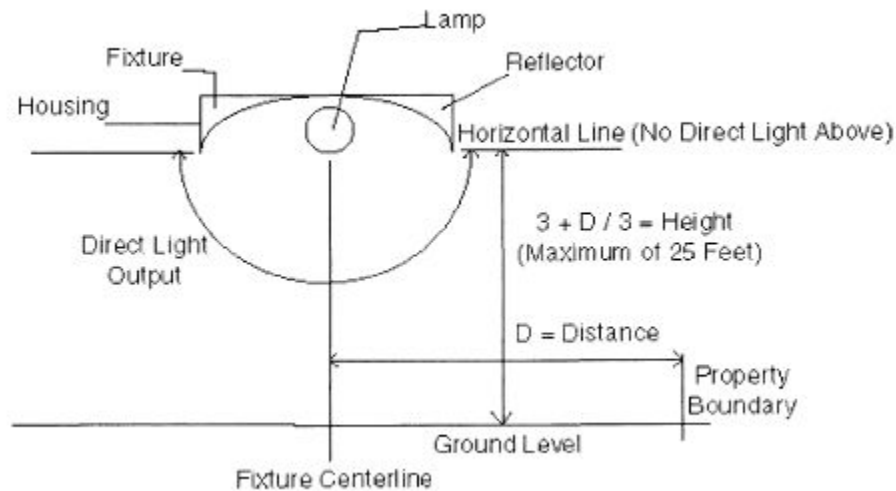

1 - 28 watt compact
fluorescent

NEW SHOREHAM CODE

2. Only new light fixtures with brighter lamps than in #1 must conform to certain shielding and mounting height restrictions.

Direct light is the light you actually can see coming straight from the lamp, off of any type of reflector or reflector diffuser in the luminaire or through any type of refractor, or diffuser of the luminaire.

3. All existing lights are grandfathered for five years unless they are replaced or removed and reinstalled.
