- [a] For senior citizen housing, automobile parking spaces shall be provided on the lot containing such housing site as follows: not less than one parking space for each independent dwelling unit; 0.3 of a parking space for each assisted or congregate care unit; and for other types of units, the parking requirements shall be determined by applying the ratio applicable to the type of unit most similar to such other units. The Planning Board may modify this requirement for senior citizen housing as part of its review and approval of the site plan of such development.
- [b] The total parking requirements for the premises shall be the sum of the requirements for each of the premises as may be required by § 5-1.2 of the Zoning Ordinance; provided, however, that the Zoning Board of Appeals may approve the joint use of a designated number of parking spaces by two or more uses or establishments on the same lot, the total capacity of which spaces is less than the sum of the spaces required for each.
- [c] Automobile parking space shall be provided on the site of any development in an amount determined by the Planning Board, as a part of its action on the site plan of this development, as provided in § 4-7 of this ordinance, to be adequate to provide for the parking of the vehicles of all persons employed on the site and all other persons who may be expected to visit the site at any one time for any purpose, whether as customers, purveyors, official visitors, guests or otherwise.
