(i) If problematic site or structural conditions preclude temporarily lifting or moving a building as a single unit; or

(ii) If the physical conditions of the existing materials prevent temporarily lifting or moving a building and the applicant has

demonstrated that panelization will result in the preservation of a greater amount of historic material; or

(iii) all other alternatives have been shown to result in additional damage or loss of historic materials.

Under all of the above criteria, the Historic Structure(s) and or Building(s) must be reassembled using the original materials that are found to be safe and/or serviceable condition in combination with new materials; and

Instead, the City recommends and supports preservation, renovation, adaptive reuse, Reconstruction, and relocation within the Historic District. It is recognized, however, that economic hardship and other factors not entirely within the control of a Property Owner may result in the necessary Demolition of a Historic Building, Structure or Site.
