NOTES:

¹ Minimum lot sizes in R-1 and R-Ag-1 are subject to percolation tests required under § 155-42, but in no event are less than one (1) acre.

² For buildings in excess of 35 feet in height in the HD Zone, there shall be a visual impact analysis prepared under SEQRA because the HD Zone includes property within the Coastal Boundary Zone. Regarding the alternative means of measurement of height by feet or by number of stories, the lesser of the two alternatives shall apply.

³ Minimum setbacks are subject to § 155-52 in R-Ag-1, R-1, and HD Zones that are next to active agricultural lands in efforts to preserve and protect agricultural practices. This minimum setback of 75 feet from the property line will supersede other minimum setbacks identified in Schedule I.
