NOTES:

- (a) The minimum frontage may be reduced to a value of not less than 180 feet, with the approval of the Borough Planning Board at the time it approves the subdivision containing said lot, in the case of an interior lot which falls on a curve in the street on which said frontage is measured, provided that said lot falls on the side of the street having the greater radius of curvature.
- (b) Minimum lot width at the required minimum front building line.
- (c) Maximum height shall not apply to church steeples or spires; provided, however, that said steeples or spires conform in all respects to the Building Code and Fire Code.
- (d) A corner lot shall provide the minimum front yard requirements in the zone of its location for both intersecting streets (§ 210-30). The front yard shall be measured from the center line of the street (see § 210-3B), except for townhouses which shall be measured from the front property line.
- (e) The minimum frontage and lot width for a corner lot shall be 250 feet.
- (f) Minimum lot area for the entire development.
- (g) Minimum of 50 feet from Boroline Road.
- (h) (Reserved)
- (i) (Reserved)
- (j) (Reserved)
- (k) The building height may be increased to 37 feet for gabled roof structures.

XXXXX CODE

(I) An additional 2 1/2% improved lot coverage over the 45% maximum is permitted for the construction of active recreational facilities
