closest point of the property line of the school, day care, or church. If the school, day care, or church is part of a larger structure, such as an office building or strip mall, the distance shall be measured to the entrance or exit of the school, day care, or church closest in proximity to the facility.

- b. In the case of a facility that is part of a larger structure, such as an office building or strip mall, the distance between the facility and the school, day care, or church shall be measured from the property line of the school, day care, or church to the facility's entrance or exit closest in proximity to the school, day care, or church. If the school, day care, or church is part of a larger structure, such as an office building or strip mall, the distance shall be measured to the entrance or exit of the school, day care, or church closest in proximity to the facility.
 - c. A marijuana dispensary facility shall maintain a buffer of five hundred (500) feet between facilities and shall be subject to approval by the City of Hollister in the "C-R" Commercial Retail Zoning District.
2. Measurements shall be made along the shortest path between the demarcation points that can be lawfully traveled by foot.
 3. Licensees shall not distribute free marijuana products to consumers for promotional purposes.
 4. No on-site consumption of marijuana, marijuana-infused products or smoking on the licensed premises.
 5. Dispensary facility shall not operate other than between the hours of 8:00 A.M. to 10:00 P.M.
- D. Construction or remodel at a site location requires the following:
1. The facility granted license with the following:
 - a. Descriptions, schematics, or blueprints for the building.
 - b. An attestation that the proposed location for the building complies with the facility location requirements of 19 CSR 100-1.060 and any location requirements of the City of Hollister that would apply to the facility for which the building is being constructed;
 - c. The City of Hollister has enacted zoning restrictions applicable to the facility for which the building is being constructed, the text of the restrictions and a description of how the building will comply with those restrictions.
 - d. An attestation that the building will comply with all other rules applicable to the facility for which the building is being constructed.

ZONING REGULATIONS

- e. Drive-through lanes, pickup windows and/or delivery shall comply with all rules applicable to 19 CSR 100-1.180 by the Department and City of Hollister Code, if any.
- f. Any excess or unusable marijuana or marijuana byproduct of a dispensary facility shall be disposed of in the following manner, as applicable:
 - (1) Solid and liquid wastes generated during marijuana dispensing must be stored, managed, and disposed of in accordance with applicable State, tribal, local and municipal laws and regulations. Licensees must keep records of the final disposal destinations of all such wastes for at least five (5) years or longer if required by Federal, State, tribal, or local law;
 - (2) Wastewater generated during marijuana production and processing must be disposed of in compliance with applicable State, tribal, local, and municipal laws and regulations;
 - (3) Wastes from the dispensing of marijuana must be evaluated against State hazardous waste regulations to determine if those wastes qualify as hazardous waste. It is the responsibility of each waste licensee to properly evaluate their waste to determine if it is a hazardous waste per 40 CFR 262.11. If a licensee's waste does qualify as a hazardous waste, then that waste is subject to the applicable hazardous waste management standards.
- 2. Licensees that sell ingestible marijuana-infused products shall comply with the applicable food safety standards set forth in 19 CSR 20.
- 3. Licensees shall store all marijuana at an approved zoning location and shall meet all requirements set forth in 19 CSR 30-95.
- 4. All facility waste of any type must be stored securely before final disposition, which can be done within the facility in areas designated for disposal activities or, if necessary, outside the facility in a locked, tamper-resistant receptacle.
- 5. All dispensary licensees shall establish and follow procedures to ensure marijuana remains free from contaminants. The procedures must address, at a minimum:
 - a. The flow through a facility of any equipment or supplies that will come in contact with marijuana, including receipt and storage.
 - b. Employee health and sanitation.
 - c. Environmental factors, such as:
 - (1) Floors, walls and ceilings made of smooth, hard surfaces that are easily cleaned.
