**NOTES:**

- <sup>1</sup> When two or more principal buildings exist on a lot, there shall be a maximum of two freestanding signs on the lot.
- <sup>2</sup> Menu boards shall not be considered a freestanding sign and shall be permitted, but the square feet of the menu board shall be counted as part of the permitted freestanding sign space.
- <sup>3</sup> When the total number of existing signs exceeds the maximum number of signs permitted, an A-frame sign shall not be permitted.
- <sup>4</sup> See Table 5.2, Sign Area Regulations, for parallel and window signs.
- <sup>5</sup> For each use, a maximum of three signs along each street on which such use is located shall be permitted in these districts. All signs in the POMU District shall be consistent and compatible with the style, composition, materials, colors, and details of the building and the purposes of the POMU District and shall not obscure key architectural features of a building.
