Bill 2023-A  
Ordinance 32

TITLE: AN ORDINANCE AMENDING PROVISIONS OF TITLE 16 CONSOLIDATED DEVELOPMENT CODE OF THE CHURCHILL COUNTY CODE

SUMMARY: THIS ORDINANCE AMENDS PROVISIONS OF TITLE 16 CONCERNING THE CONSOLIDATED DEVELOPMENT CODE. IT AMENDS THE USE TABLE FOR ZONING DISTRICTS TO CLARIFY THE ZONES IN WHICH CERTAIN VEHICLES AND VEHICLE ACCESSORIES MAY BE SOLD, ESTABLISHES THE PERMITTING PROCESS UNDER WHICH CERTAIN VEHICLE AND VEHICLE ACCESSORIES MAY BE SOLD, AND PROVIDES FOR OTHER MATTERS RELATED THERETO.

TITLE 16 CONSOLIDATED DEVELOPMENT CODE is hereby amended as follows:

**SECTION 1**

**Chapter 16.08-II Land Use Districts**

Section 16.08.250 Use Table for All Zoning Districts is amended as follows:

**16.08.250. Use table for all zoning districts.**

A. All proposed uses and developments must be categorized according to the use listings in the land use table of this section. Where a proposed use or development does not clearly match a listing in the table, the planning director shall perform a similar use determination to classify the proposed use or development as the closest applicable use listing in the table. A similar use determination may be appealed to the planning commission, or the planning commission may modify the determination during a normal permit hearing for the project.

B. All proposed uses and developments must be consistent with the use limits and permitting requirements provided in the land use table of this section for the zoning district in which they are located. Variances may not be requested or approved to allow prohibited uses, nor to change the required permit or review for allowed uses.

C. Refer to section 14.04.030 of this Code and section 16.16.020 of this title for additional regulations that might affect uses in these districts.

D. Uses in the land use table of this section are identified with use limits, permit process requirements, and establish use limits and permit processes for specific instances, as provided below:

Notation to identify modifications to use limits or permit processes within the NAS overlay. These apply only when a use is allowed, not prohibited. This notation increases the level of review normally required in a situation and is accompanied by one of the above symbols to indicate the minimum level of review. It may also indicate that a use that might be allowed is prohibited in the NAS overlay due to operational concerns.  
"Uses in NAS Fallon overlay may be †X - Prohibited, or †S - must have at least a SUP review, or †A - must have at least a administrative SUP review."
